Is your uniform a

CARRIER OR BARRIER?

Don't take your work home with you.

What's on your scrubs?

Think about it.
After a long day in your uniform — changing catheters, starting IVs, administering medications — would you pick up your child? Hug your spouse?

Association of Professional in Infection Prevention has stated "*Clothing can be a virtual conveyor belt for infections*." But you don't need a study to tell you that. Every day you worry about bringing dangerous microbes home to your family or transferring them among your patients. But don't worry. Peace of mind is here.

FDA 510(k) Cleared VESTEX your first line of defense against the dangerous conditions you encounter daily. VESTEX garments are microbial protective and blood and body fluid repellent to keep you clean, safe and comfortable.
And worry free.

VESTEX™

FDA 510(k) Cleared, Protection you can trust.

VESTEX™ effectiveness and safety has been: Validated by the FDA; Endorsed by the American Hospital Association; Recommended by the National Science Foundation Center for Healthcare Transformation.

1. **RAPIDLY REDUCES 99% of MRSA & Human Corona Virus on apparel in under 1 minute.**
   - Protects staff and their families from the transfer of microorganisms, body fluids and particulate material.
   - Inactivates microorganisms preventing the pathogen from being retained on the fabric.
   - Hospital Proven to reduce 99.99% of MRSA accumulation on clothing vs control clothing at the beginning and end of a 12 hour shift.[1]

2. **REPELS Blood, Urine, Sputum, Gastric Fluid and Bleach.**
   - Protects workers from intermittent or unexpected exposure to microorganisms from blood, body fluids and other potentially infectious material.
   - Prevents bacterial acquisition on clothing.
   - Reduces exposure and colonization of MRSA & Human Corona Virus on apparel.

3. **REINVENTS worker Safety and Protection.**
   - VESTEX replaces non-protective general work clothes and uniforms that are known to become rapidly contaminated.
   - Unparalleled breathability, comfort and Safety.
   - Easy care with machine wash and dry with stain resistance and durability beyond 50 laundering cycles.

[1] Bearman, GML, et al. A Crossover Trial of Antimicrobial Scrubs to Reduce Methicillin-resistant Staphylococcus aureus Burden on Healthcare Worker Apparel. Infection Control and Hospital Epidemiology. Vol. 33, No. 3 (March 2012), pp. 268-275.

VESTEX does not replace PPE; The ability of VESTEX to reduce the retention of MRSA and Human Corona virus on the fabric surface has not been shown to correlate with the reduction of infections. Clinical studies to evaluate reduction in infection have not been performed for this device. VESTEX Apparel is not intended to replace personal protective equipment.
